

Job description – DevOps Engineer

We're an innovative InSAR ground movement data company on an exciting growth curve, looking for someone motivated to grow with the company. At SatSense we are led by our technology and a desire to create the best possible insight for our customers. We are inclusive, flexible and we love collaborating internally and externally to deliver the best we can for our customers. We believe that the supportive environment we provide for our people is reflected in the products and services we offer.

As part of our continued growth, we're looking for someone to bridge between our application development, data processing and system workflows. This will include running and monitoring scripts, and helping improve the processes longer-term, as well as keeping on top of server and application maintenance.

Example activities include:

- Running and monitoring scripts to insert and update new daily data
- Generating imagery, transferring output between servers
- Working with developers to automate scripts in the short-term, then enhance automation in the long-term
- Setting up and deploying applications and databases
- Gathering application statistics
- Retrieving ad-hoc one-time data from databases
- Monitoring & managing servers
- Monitoring apps, investigating system alerts
- Liaising with infrastructure around upgrades

You will ideally be able to demonstrate experience with the following:

- Understanding of the software development life cycle
- Linux (e.g. Ubuntu, CentOS)
- HTTP servers (e.g. Apache, Nginx)
- SQL (e.g. Postgres, MySQL)
- Version control (e.g. Git, SVN)
- DNS management, SSL certificates
- Programming languages (e.g. Python, Ruby, PHP)
- Performance tools (e.g. New Relic)

Salary and benefits

£20k - £40k salary depending on experience, with great benefits including but not limited to the below:

- 10% discretionary bonus scheme
- 25 days holiday per year plus UK bank holidays, increasing by one day with every year served to a maximum of 30 per year
- Option to buy or sell up to 5 days holiday per year (up to 30 total holiday days per year)
- Flexibility on working arrangements
- Professional development allowance
- Enhanced maternity / paternity pay
- Staff socials and activities
